PROGRESSIVE GRAMMAR

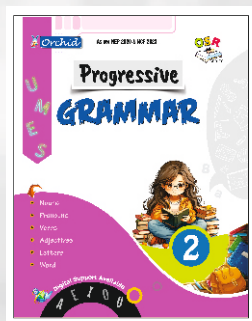

(A TEXTBOOK OF ENGLISH GRAMMAR)

The purpose of language learning is to improve the speaker's four skills of listening, speaking, reading and writing with the base of large vocabulary and good grammar. All the skills facilitate language learning. Language learning is like learning swimming. You cannot teach swimming to someone by sitting at the bank of river and giving lecture. For this purpose you will have to jump in the river. In the same way, language cannot be learned by just cramming the rules of grammar or lecture. It can be learnt through conversation and discussion. Hence keeping this in our mind, we have come up with the new series of Progressive Grammar.

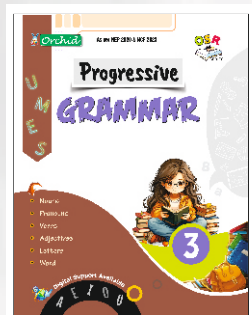

A complete guide to enhance the grammar skills with sample of examples and 'Do it yourself' exercise.
